Vitamin C 23% Instruction for use

01. Depending on the skin condition, the serum may cause a possible reaction on the skin. It is recommended to perform

possible reaction on the skin, it is recommended to perform a patch test first and adjust the application amount gradually.

The concentration of pure vitamin C may cause minor side

- 02.** effects such as peeling, redness, and irritation. These side effects are temporary but if irritation persists and develops, reduce the frequency or discontinue use.
- 03.** Due to the high concentration of vitamin C, it is recommended to use the product once every 3-4 days.
- 04.** Due to the vitamin C raw material, there can be changes in the color and odor of the content.
- 05.** Due to the nature of vitamin C, gas-tinkling sounds may be heard when the product is open.
- 06.** Do not shake the product before opening, and once the dropper is placed, gently sway the bottle from side to side to use.
- 07.** To increase shelf life, store the product in cool, dark places away from direct sunlight.
- 08.** This product is easily discolored due to oxidation once unsealed, so use it within 2 months after opening.
- 09.** Recommended for nighttime use and SPF should always be worn during the day.
- 10.** Avoid using exfoliants, peeling ingredients, and beauty devices that may irritate the skin
