Main Ingredients

VL Main Active Ingredients

Getting Rid of Wrinkles

Dipeptide Diaminobutyroyl Benzylamide (Syn-AKE) Acetyl Hexapeptide-8

Dipeptide Diaminobutyroyl benzylamide & Acetyl Hexapeptide-8 is protein component of vegetable amino acid which is excellent for removing wrinkles and improving skin tightening. It helps reduce existing wrinkles and suppressing(reducing) newly formed wrinkles. It is a non-irritating and nontoxic component. And as a substitution of Botox, you can expect fast absorption safely with less side effects.

VX Main Active Ingredients

Collagen & Elastin regeneration

EGF, FGF, IGF (1,000 PPM), SOD, TRX Palmitoyl Pentapeptide-4, Palmitoyl Tetrapeptide-7

EGF(Epidermal Growth Factor), FGF(Fibroblast Growth Factor) and IGF(Insulin-like Growth Factor) ingredients speed up the production of collagen and elastin cells in the skin. On top of that it intensively stimulates collagen, elastin, hyaluronic acid production of skin itself. Therefore, it gets rid of wrinkles and improves skin elasticity by creating beautiful and healthy skin. The new cell formation removes sediment in the skin, resulting in a visible brightening improvement.

VLX Main Active Ingredients

Antioxidant

Vitamin C, B2, B3, B12, Nicotinoyl Tripeptide-1, Adenosine

Melanin (skin pigment) is produced due to prolonged exposure to the sun and free radical damages. Antioxidants fight both the causes and moreover, it decreases production of melanin. Inflammation slows down the skin's renewal process. By reducing inflammation, antioxidants allow skin to repair itself and quickly repair skin damage. Antioxidants. Vitamin C and B group, can also stimulate collagen production.

VX Recommend

If you're struggling with wrinkles and fine lines caused by loss of elasticity

If you have loss of firmness and sagging skin

If you have a weak skin barrier

If you're worried about getting wrinkles and its deepening

If your skin is frequently exposed to UV rays and is prone to hyperpigmentation

VX Treatment areas

How to Use

VELATOX

Do not use more than 0.2 cc of VELATOX ampoule at every(one) point. The needle depth must be adjusted according to the skin thickness and treatment area.
Diagonal 0.2 to less than 1 mm

Needle depth by applicable site (mm):
Forehead : 0.2~0.5mm
Worry lines : 0.25~0.5mm
Crow's feet : 0.2~0.25mm
Cheek : 0.2~0.5mm
Chin : 0.2~0.7mm
Neck : 0.2~0.7mm

VELASEM

VELASEM is used for applying after the **VELATOX** procedure is complete

Apply to problem areas such as crows feet, mouth, forehead, nose, neck. Applying a drop to the area, gently spread, and lightly tap to absorb.

Also, VELASEM can be sprayed evenly with an airbrush (Spray).

* Adjust the dosage and depth according to the treatment area.

How to keep

Please keep it away from direct sunlight.

Keep it in a shady place.

Store below 30 degrees Celsius.

Opened products are refrigerated at 5 to 10 degrees and must be used within 7 days.

VX Cautions

- ✓ The opened ampoule should be used immediately.
- ✓ Use strictly recommended dosage for the treatment areas.
- ✓ Do not mix with other solutions.
- ✓ Do not irritate or massage the treatment areas.
- ✓ Do not use on sensitive skin that has red spots, itchiness or irritation.
- ✓ Avoid application on the wounded areas as well as areas with eczema or dermatitis.
- ✓ If the product gets in your eyes flush it with water immediately.
- ✓ Be careful not to damage the container. It may cause injuries.
